

W9 ATN

F. A. Gehres - Engineer

Mr. Gehres attended Indiana University, and entered the broadcasting field as an engineer in 1929. In this capacity he designed, constructed and operated broadcasting stations (WEOA, WGBF, WLAP, and WKBF) for fifteen years. He was an instructor of Radio and Television at Evansville College during the war, and in June 1945 joined Electronics Research, Inc. as a development engineer. He worked on the AT-134/ARN Marker Beacon Antenna and a zero drag IFF antenna. In July 1947 he was made Supervisor of type-testing. He has been a radio amateur since 1924, an associate member of the Institute of Radio Engineers since 1940, a member in 1948, and is a member of the Evansville Amateur Radio Society.
